

Requirements for Pet Carriers on MY FREIGHTER LLC Flights

Carriers placed under the seat

1. Maximum permitted dimensions

- Hard-sided carrier: 55 × 40 × 20 cm
- Soft-sided carrier: 55 × 40 × 30 cm

2. Carriers placed on a separate passenger seat

Maximum permitted dimensions: 55 × 40 × 40 cm.

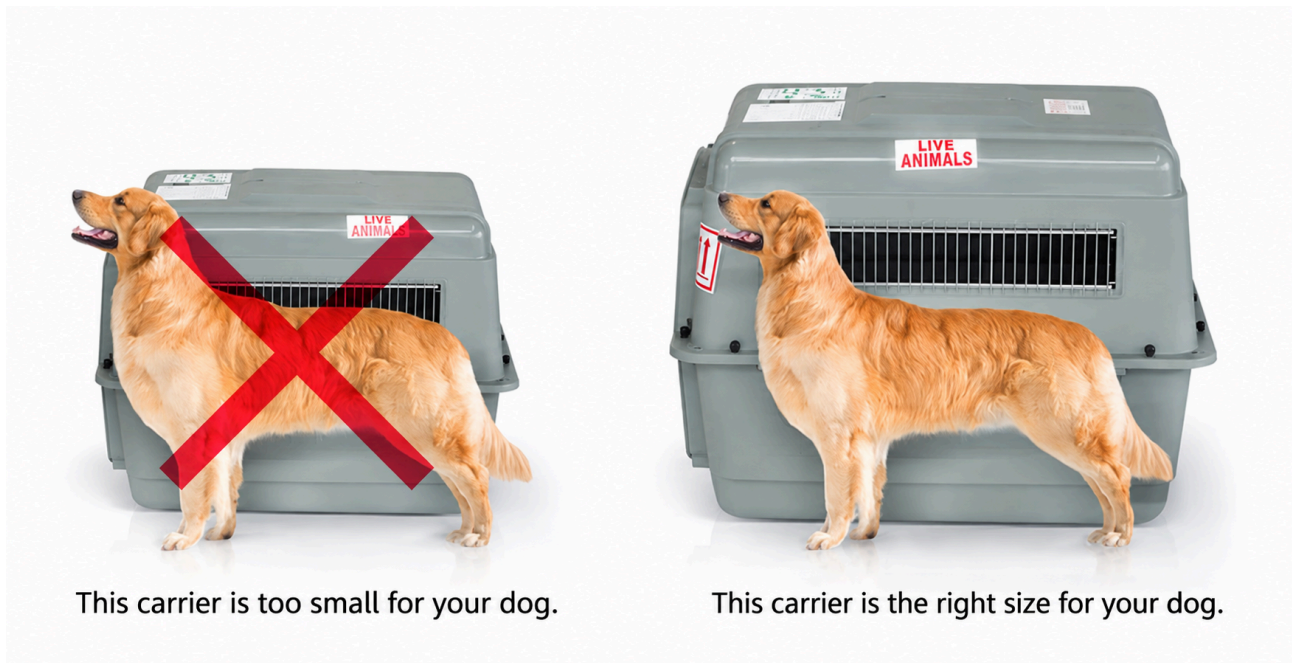

3. Carrier construction

Carriers must have a solid base, provide adequate ventilation and comply with applicable IATA requirements.

Soft-sided carriers must be waterproof and have a breathable mesh panel at the front. Open-top carriers are not permitted.

4. Choosing the right size

With the carrier closed, your pet must be able to stand naturally on all four paws, lie down comfortably and turn around freely.

5. Check-in inspection

If your carrier does not meet the airline's requirements at check-in, your pet may be refused carriage.
